

kormat

A warm space for you
and your family

We, Kormat Corporation, have proudly led the industry for over 20 years as the premier provider of the safest mats for children.

Our mats become a cherished part of your home—where children play, explore, and sometimes even chew on them. We recognize that they must create a safe and comfortable space, whether for parents seeking peace of mind, seniors needing extra comfort, or anyone in need of reliable mats.

That's why we never compromise on quality. Each product undergoes rigorous testing to ensure it meets the highest safety standards, reflecting our unwavering commitment to excellence.

Our goal is to be remembered as a company that consistently upholds the trust of our customers, providing safety and comfort for years to come.

We are Kormat Corporation.

2001 March Opened our business

2008 July ~ 2012 June Patent application and registration for mats for childcare center

2016 March Hwaseong plant expansion (A, B, C buildings)

2020 February Opened Design Research Institute

2020 October Converted to a corporation and confirmed as 'Kormat Corporation., Ltd.'

2021 June Achieved 'Naver' smart store premium rating as the first in the mat industry

2022 July Strengthening quality inspection in accordance with the standards of the National Institute of Technology and Standards, adopted Niton XL2 metal detector as the first in the mat industry

With our 20 years of dedication to making the best mats,
an overwhelming number of daycare centers and
kindergartens choose Kormat.

500,000+

So far, 300,000 customers
have purchased over 500,000
mats from Kormat.

50,000+

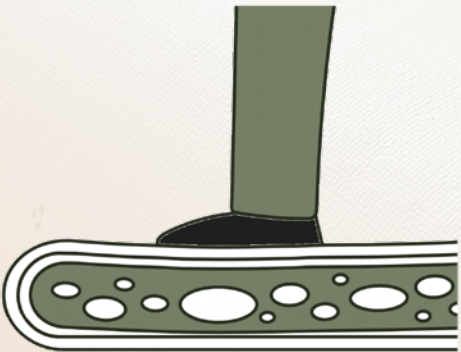

More than 50,000 infant
education institutions are
using Kormat.

500+

We have been supplying
more than 500,000 mats to
500 companies including
'Abode'

Effective shock absorption and anti-slip as
the most basic functions of our mat

Two layers of high-density ECO PVC foam and a
uniform internal air cell cushion provide excellent
shock and noise absorption. Moreover, drawing
from extensive research on friction factors and case
studies, we've applied an optimal embossing finish
to improve slip resistance and ensure the safety of
your family.

A long-lasting mat with high durability

Tired of mats that quickly wear out? Kormat's
mats are designed with a special ECO PVC
coating that resists ripping, even with heavy use
or scratches. Plus, our fine finishing with high-
frequency waves prevents contaminants from
penetrating the mat's surface.

Eco-friendly mat with uncompromised
child safety

Our products meet and exceed rigorous safety
standards, earning quality certifications from KATRI,
KCL, and the Swiss SGS Group. With the highest
safety rating under the Product Safety Special Act,
Kormat is fully certified for use by children from 0
years and up.

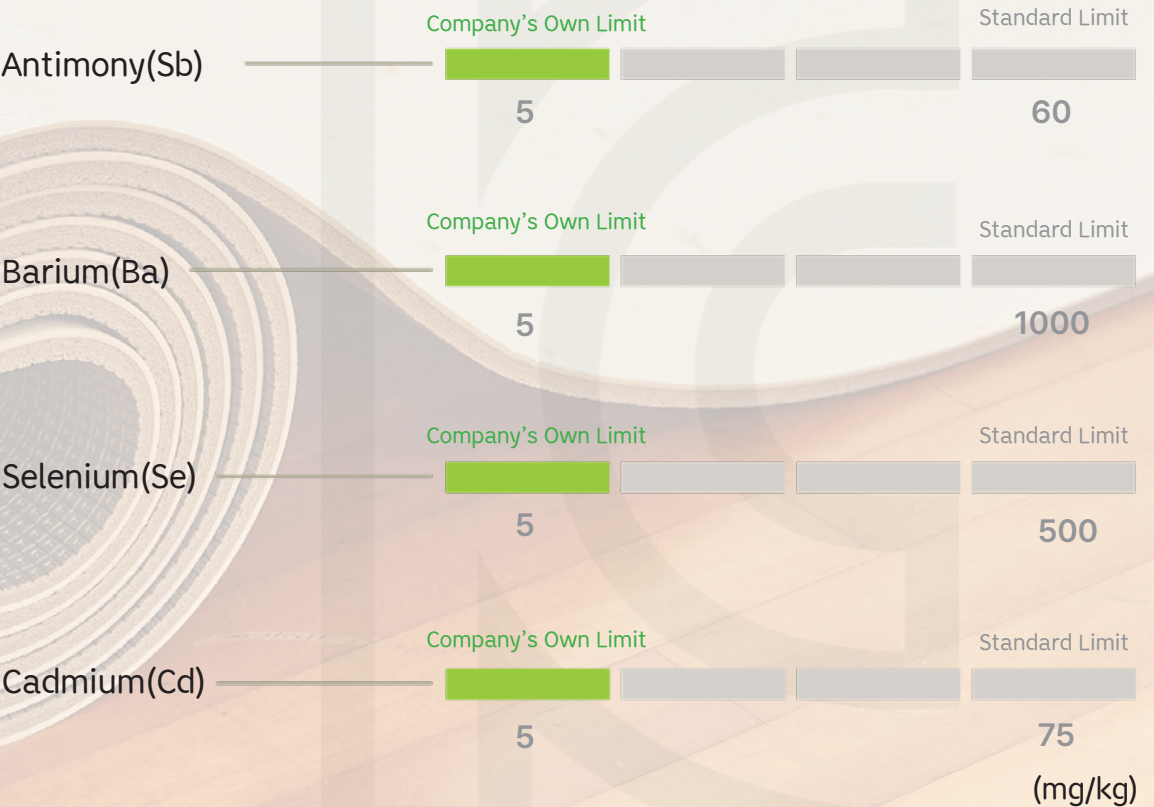

KC Safety Certification
(CB024H046-1001/1002)

SGS Certification
(F690101/LF-CTSAYHA13-04952)

KOLAS
(KIKO 21-00007556)

"On top of the adorable characteristics of the bear, the fabric-like details are added to give children a warm and friendly image."

**Warm
Minimalist
Design**

Kormat is dedicated to creating a “warm minimalist design” that adds coziness and blends smoothly into any space. We hope our design endures in your memory.

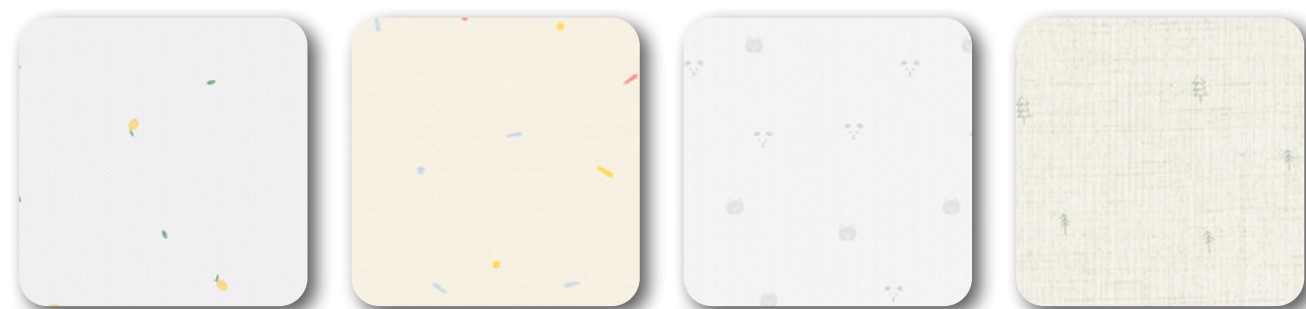

"The scribbling design with a brush appears intriguing to children."

Neutral Color Design

Infant items with colorful and character-filled designs often look cluttered and overwhelming. To avoid this “interior chaos,” Kormat’s new product lines feature warm neutral tones that blend seamlessly into your living spaces.

Comfort and Portability

Kormat's ECO PVC delivers outstanding shock absorption and sound reduction with its dense, evenly distributed structure. Weighing just 85% of standard PVC foam, it's easier to relocate or carry from room to room.

Durability

Antibacterial ECO PVC foam with a triple-layer wrapping ensures durability and effective water resistance.

Safety

A thoughtfully designed embossing pattern enhances slip resistance and durability, while high-frequency welded edges create a seamless fit with the floor, preventing tripping hazards.

Extra Durability

Featuring an extra protective layer coating, our mats offer increased durability and resistance to scratches, bites, and stains. They also provide excellent slip resistance through specially designed embossing.

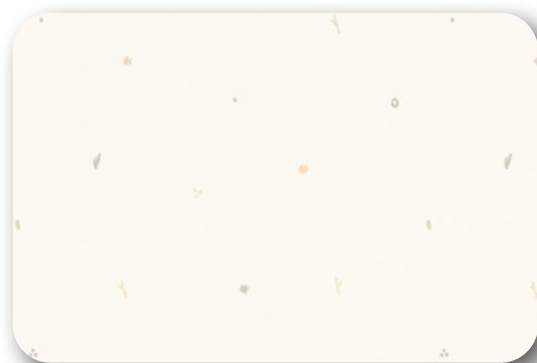

Premium Comfort

Optimal thickness provides the perfect support for your pet's movements. The right balance of padding is crucial as excess or insufficient padding can cause joint discomfort.

Safety

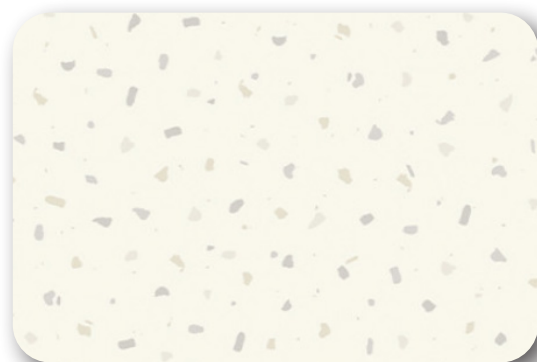

Barky mats are made from pet-safe, non-phthalate PVC that is easy to clean with a damp cloth and does not trap dust or pet hair like fabric carpets do.

Self-customizable Roll mat

that can fit into any spaces of our house

Durability

The triple-layer surface coating prevents contamination, while the non-slip MagicCell pattern on the underside ensures excellent durability and slip resistance.

Convenient Fitting

Customize the mat to any size you need and arrange it as desired. Use the silicone fix tape (sold separately) for a seamless finish that prevents dust and shifting.

Multi-Layer Cushioning

ECO PVC combined with dual-layer PE offers superior cushioning. Kormat has increased the PVC layer's thickness by 20% for an enhanced comfort.

Folding mat

for easy, portable play wherever you go

Ultra-thick 4cm padding

Kormat folding mats feature 8 layers of high-density PE foam, providing exceptional pressure relief for wrists and ankles during kids' energetic play.

Durable and stylish

The high-quality laminated PU memory fabric cover is water-resistant and easy to clean, making it perfect for busy families who value both functionality and style. The hidden zipper adds an extra touch of completion.

Foldable and portable

The convenient foldable design makes it easy to move to another room or location. When not in use, the mat folds neatly for compact storage.

FAQ

Q: How are the prices set, and can discounts be negotiated for special events or purposes?

A: Our prices are based on standard list pricing. For a detailed quotation and to discuss potential discounts, please contact us at sales@kormat.co.kr.

Q: What are the payment terms and delivery times?

A: A deposit is required with the order, and the remaining balance is due before shipment. Delivery times vary by region, but orders are typically fulfilled in less than the maximum one-month period.

Q: Can I receive samples before placing an order?

A: Yes, we can provide samples of approximately 30x25 cm PVC roll mats, shipped via EMS or FedEx. Please note that we are unable to provide samples of folding mats.

Q: Can I customize the size or pattern?

A: We are open to discussing customization for special orders. However, please note that custom options must involve additional development costs and a minimum order quantity.

Q: What is the warranty policy for purchased products?

A: We are dedicated to customer satisfaction and stand behind our products. We ensure that any issues are addressed promptly and resolved to the best of our ability.

If you have any further questions, please reach out to us at sales@kormat.co.kr and we'll respond promptly.

Care Instructions

1. A slight odor may be present upon opening the package, but it will gradually dissipate within a few days.
2. Pattern placement may vary slightly due to the manufacturing process.
3. Use mats exclusively for flooring purposes.
4. Before placing the mat, ensure the floor is completely clean and dry.
5. Cold environments may cause the mat to become firmer; warmth will restore its softness.
6. Prolonged pressure from heavy objects may cause deformation.
7. Clean the mat using wet wipes or a sponge/cloth with water, and ensure it is thoroughly dried.
8. Most spills can be easily cleaned with wet wipes, but extreme dirt, paint spills, or heavily pigmented substances may stain the mat and should be avoided.
9. Avoid using rough brushes, strong detergents, or steam cleaners to prevent surface damage.
10. Do not soak in water for extended periods or machine wash it.
11. For roll mats, be cautious of potential damage or contamination on the uncoated side edges.
12. The dimensions and thickness of the product may vary by up to 3% from the specified measurements.
